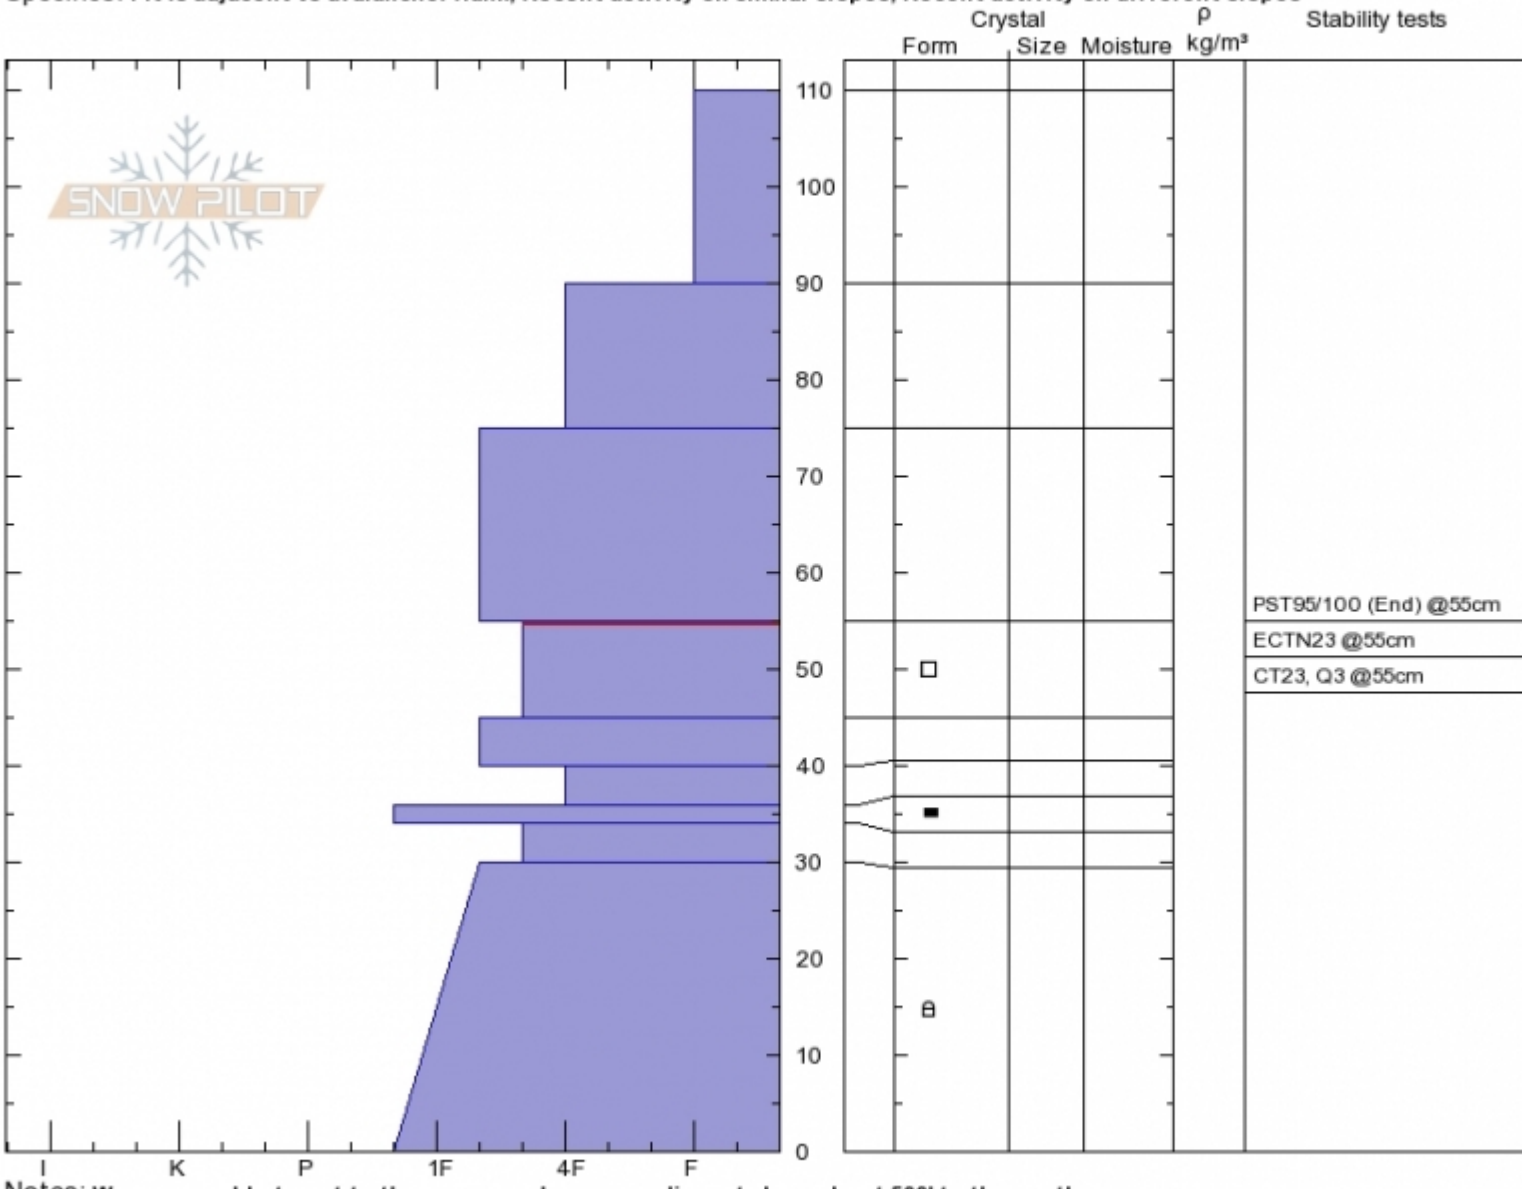
Co-ord: **45.81990N, -110.93320W**
Slope Angle: **27°**
Wind Loading: **yes**

Stability: **Poor**
Air Temperature: **-8°C**
Sky Cover: **BKN**
Precipitation: **NO**
Wind: **W Light Breeze**

HS110
Stability Test Notes

Layer No
45-55: Pr

Specifics: **Pit is adjacent to avalanche: flank; Recent activity on similar slopes; Recent activity on different slopes**



Notes: **We were unable to get to the crown, so dug on an adjacent slope about 500' to the south.**

Advisory Region
Bridger Range
Bridger Range, 2017-12-30
