## Large avalanche N face Blackmore

Mt Blackmore Northern Gallatin 3/11/2024 Code HS-NC-R3-D3.5-O Elevation 9800 Aspect

N

Latitude

45.44440

Longitude

-111.00400

Notes

Large avalanche North face Mt Blackmore. Appeared to be potentially triggered by <u>cornice</u> fall from above. Crown propagated across majority of the bowl and was quite large in places.

From Obs: "Cornice fall triggered a big one. Looks to be real fresh. last night or this morning Broke across the whole bowl and up to 8 feet deep maybe more right in the middle. Broken trees in the debris, And ran out of sight."
