

Shooting Cracks up Dudley Creek

Date

Tue, 02/04/2025 - 16:40

Shooting cracks on Tick ridge in the Dudley drainage. This [slab](#) from my [ski cut](#) was about 20" deep and 60' wide. It's NE facing so pretty wind blown. I took a gladed path but in more open sections I imagine this would have propagated much wider and further downslope. Probably 35 degrees here.

Region

Northern Madison

Location (from list)

Dudley Creek

Observer Name

Stefan Budac
